

March, 2006

We were recently looking into refinancing our home. We considered several options but were persuaded by the savings and service promised on radio ads on WAEZ for The Mortgage Company. After contacting and meeting with Steve Stelzman, we quickly found the radio ads to be true. Steve made the refinancing process understandable and very easy to complete. He was very personable, prompt, and always worked with our time schedule. Steve presented several refinancing options for both short and long term savings. After reviewing these options, it was easy for us to choose the plan that was best for us. The closing process went very smoothly and quickly and we are enjoying the benefits of refinancing. We highly recommend Steve Stelzman and The Mortgage Company to anyone considering any type of refinancing.
