

7/6/07

Dear Steve,

I wanted to take a moment to tell you how pleased we were with the Mortgage Co. This was our first home buying experience and you helped ease our anxiety by showing us + explaining everything you did during the application process. We especially liked how you did not hide behind your computer, but faced the monitor so we could see exactly what you were doing. You also gave us mortgage options + let us choose the best one for our situation. And we were excited to see you at our settlement ~~at~~ day! Josh's father recommended you because he has listened to you several times on radio. He knew you could help us + he was right! Thanks again for helping us buy our first home.

Josh Wagner
